DERVISH LEADING ALL OTHER YACHTS

NEW YORK, June 5.—Threshing to windward in southerly seas, the black-hulled schooner Dervish, of the Corinthian Yacht Club, Massachusetts, was leading her competitors in the ocean yacht race to Bermuda late to-day, when the yachts were last sighted to the eastward of Scotland Light vessel, just before they were enveloped by the mist that were piled in from seaward by a nasty twelve-knot southeaster. The Dervish, to windward of the schooner Tammany, led by nearly two miles, while the other contesting yachts straggled along far to leeward in the wake of the leaders. The yawl Hyperion led her two smaller competitors, the sloops Lila and Zena, for the three clubs' cup. Nine yachts started in the fifty-foot class or over for the cup offered by Commodore Major, of the New Rochelle Yacht Club, while three boats crossed the starting line in the contest for the three clubs' cup, to be given to the winner of entries for the race under fifty feet in racing length. When the wind-jamming fleet swept past Scotland Light vessel this afternoon the schooner Dervish held the lead in the Major cup class, followed by the schooner Tammany, Shamrock, Lila, Mist, the sloop Islet and the yawl Flamingo, in the order named. The Hyperion led the smaller class, with Zena second and Lila third.

LAWMAKER IS A NECESSARY EVIL

Bryan Puts That Proposition Be-
fore Legislature at
Albany.

HAD TALK WITH GOV. HUGHES

Says Movement to Put People in
Control of Government Is
Growing.

ALBANY, N. Y., June 5.—William Jennings Bryan to-day addressed both houses of the Legislature, and talked for a half hour informally with the newspaper correspondents. Governor Hughes and Mr. Bryan had a brief chat, and afterward each spoke in cordial terms of the other.

Mr. Bryan returned late this afternoon to New York. In the assembly chamber Mr. Bryan spoke for over half an hour, devoting considerable time to what he deemed to be the duty of a representative selected by the people. "The growing tendency," said he, "is to put the people more in control of their own form of government. This is manifested in the sentiment for direct primary nomination for the selection of public officers. All over the country there is a distinct tendency to put the party management into the hands of the voters and the power to say who shall represent them. If a representative is not in harmony with his constituents it is his duty to resign and give the people a chance to choose one who can represent them. I hope I will not offend any one when I say that the representative is a necessary evil. If it were possible to have the people together and decide questions it would be better. But that is impossible."

Mr. Bryan commended President Roosevelt for the position he has taken in reference to prohibiting corporations from contributing to political campaign funds, and also in regard to "swollen money fortunes." He declared that these "swollen fortunes" were "in the hands not of the masses of the people but of those who so-called favors from the government."

"Hard to Be a Partisan."
"I find it increasingly difficult," said Mr. Bryan, "to make a partisan speech. Whenever I make one, before long President Roosevelt says the same things with more force and eloquence, and takes them out of the field of partisanship."

In the Senate, Mr. Bryan said, in contrasting the forms of monarchical and democratic government: "The democratic government is strongest because it dares to lay its citadels in the hearts of the people. The moral element in government is not only a great element, but is the paramount element. I think that our country has a high mission in this world—to shake the thrones of the world, not with force, but by a democratic government, existing by the will of the governed."

DISCUSS RUNNING OF SUNDAY TRAINS

Members of Interdenominational
Church Committee and Railway
Officials Hold Conference.

TALK OF SUNDAY EXCURSIONS

If Conclusions Were Reached,
However, They Were Not
Announced.

[Special to The Times-Dispatch.]
LYNCHBURG, Va., June 5.—The subcommittee of the interdenominational church committee, appointed last year as the result of action on the part of several church bodies of the State to inquire into the question of the operation of Sunday trains, especially the movement of freight trains on the first day of the week, met representatives of the Norfolk and Western and Southern Railway in a conference at the Y. M. C. A. to-day at noon.

The conference, it was pointed out this afternoon, was for the purpose of each side presenting what it believed to be an equitable solution of the matter, but the deliberations were not made public. The conference took place in executive session, lasting an hour or more.

There were present Messrs. George E. Caskie and H. H. Harris and Dr. W. W. Smith, of the committee, and President L. B. Johnson, of the Norfolk and Western; Vice-President W. W. Finley, of the Southern; Vice-President H. B. Spencer, of the Southern; Vice-President J. M. Culp, of the Southern; General Manager N. D. Maner, of the Norfolk and Western, and General Counsel A. P. Thom, of the Southern Railway. President George W. Stevens and General Manager Doyle, of the Chesapeake and Ohio, expected to be present at the conference, but President Stevens telegraphed this morning that conditions were such that he would be unable to be present.

Sunday Excursions.

In addition to the railway officials, there were a number of clerks and private secretaries, who accompanied them on the trip. Among these were H. K. Bell, chief clerk to President Finley; Robert L. Lenthart, clerk to Mr. Thom; L. H. Skinner, secretary to Mr. Spencer; and Ralph Shropshire, clerk to Mr. Culp.

It was learned this afternoon that while the question of Sunday excursions was discussed informally, that the real object of the meeting was to confer over the operation of freight trains.

From what was given out, after the meeting it seems that there is a wide difference of opinion between the members of the subcommittee and the railway representatives as to how freight trains should be made up for transportation on Sundays. For instance, the members of the committee held that if the Southern should have three cars of perishable freight at Spencer, N. C., consigned to Washington, that those three cars should be put in one train and not be used as a pretext for the operation of three trains through the State by putting one of these cars in each train. That this has been the custom of the railways is known to the committee, and how to prevent this is yet to be solved.

As to Sunday excursion rates, there seems to be no doubt but they are a thing of the past in Virginia. The committee and the railway representatives are agreed that the question of Sunday excursions should be left to the discretion of the railway companies.

"NEXT FRIENDS" WIN THE EDDY SUIT

Petition of Trustees for Right to
Intervene Is Denied by the
Court.

CONCORD, N. H., June 5.—The petition of the three trustees to whom Mrs. Mary Baker G. Eddy had transferred her property, asking that they be substituted as plaintiffs in place of "next friends" in the suit to secure an accounting of Mrs. Eddy's property, was denied to-day by Judge Robert N. Chamberlain, of the Merrimack Superior Court. The trustees are Henry M. Baker, of Bow; Josiah E. Fernald, of Concord, and Archibald McLeiland, of Boston. The "next friends" are George W. Glover, of Lead, S. D., son of Mrs. Eddy; Mary Baker Glover, his daughter, and Dr. J. Foster Eddy, of Waterbury, Vt., an adopted son, and Fred W. Baker, of Epsom, N. H., and George Baker, of Bangor, Maine. The trustees are the executors of Mrs. Eddy's will, and the "next friends" are the trustees of the property, which, it is alleged, is under control of Calvin A. Frye, Mrs. Eddy's secretary, and other Christian Science leaders, who are named as defendants. The question of Mrs. Eddy's physical and mental condition figure in the action.

Within a few hours after Judge Chamberlain's decision had been announced counsel for the "next friends" caused summonses to be served upon Calvin A. Frye, Hermann S. Herrings and Irving B. Tomlinson, three of the ten defendants to the original suit, requiring them to give their depositions in the equity proceedings for an accounting of Mrs. Eddy's property. A summons for Lewis C. Strang, formerly Mrs. Eddy's assistant secretary, could not be served on account of his absence. The summons are returnable Monday, July 1st.

They Expected to Win.

NEW YORK, June 5.—Attorney F. W. Peabody, of this city, one of the counsel for the "next friends" in the suit to secure an accounting of Mrs. Eddy's property, said to-day that the decision of Judge Chamberlain on the petition of the trustees for leave to intervene was no surprise to him. "We confidently expected to win the decision," said Mr. Peabody, "and we will now proceed to take depositions on the whole case. This we will do at once. The first thing to be determined is the mental condition of Mrs. Eddy, and our first move will be in that direction."

DR. S. C. MITCHELL DELIVERS ADDRESS

Makes Strong Talk to George
Washington University
Graduates.

(From Our Regular Correspondent.)
WASHINGTON, D. C., June 5.—Professor S. C. Mitchell, of Richmond College, delivered the commencement address at George Washington University to-day. Dr. Mitchell discussed the importance of the university to normal national life. He reviewed the educational achievements of the last century, and spoke of the national and independent impetus as having been the result of distributive education and advanced thought in all sections of the world. He spoke of the great advance in sentiment in the Southern colleges of more recent years. He suggested that from 1820 to 1880 the colleges of the South were a hindrance rather than a help to the diffusion of that class of practical education which results in the greatest good for the greatest number. Since then, however, he said, there has been a marked impetus in the right direction, and the colleges of the South are now doing magnificent work. In the lines of industrialism and national integration and racial adjustment, the most marked advance is being made.

Among the graduates were the following Virginians:
Bachelor of Arts—Francis G. Bothune, Hubert Victor Hallman, Henry Walper Kearney, Lane Bruce Kline, Clifton Robert Wallace, John Brockenhough, Harvie Waring.
Doctor of Pharmacy—John T. Keister, Jr., H. L. Law.
Bachelor of Laws—Henceford Noel Garner, Enfield Hugo Thomas, Richard Blackburn, Washington.
Master of Arts—Angus McDonald Crawford—four in class.

ONE HUNDRED AND THIRTY KILLED ON TURKISH BOAT.

TUNIS, June 5.—A Turkish vessel, laden with contraband ammunition and bound for Tripoli, has been blown up in the vicinity of Port Zarzis. Her entire crew of about fifty men, as well as eighty fishermen who were alongside at the time, were drowned. The local authorities learned the vessel was about to try to disembark her cargo on the beach. They thereupon ordered a number of armed boats belonging to sponge fishers to prevent the landing. It is believed the captain fired his vessel to escape capture.

AT ALL SODA FOUNTAINS
INSIST!!!

When you step up to a fountain or into a place where bottled drinks are sold tell the man you want Coca-Cola. Close your ears to the "just as good" argument because there is nothing just as good as Coca-Cola. INSIST. You have asked for Coca-Cola because you are convinced that

is what you want—don't let a smooth-tongued salesman rule your judgement. If the man insists go to a place where they give their customers what they ask for. Imitations are made to deceive you, not to please you.

THE REASON—Coca-Cola not only quenches thirst and pleases the palate but it relieves fatigue, and is the only beverage that has vim and go to it.
